Your real value

Cost-friendly currency counter combining identification of denominations function with the highest level of counterfeit detection

Purpose

- Simple count of banknotes with counterfeit detection
- Continuous count of mixed banknote bundles with counterfeit detection
- Denomination-based counting with the option of sum addition
- Denomination-based sorting of banknotes

Advantages

- Euro counter with extension up to 15 currencies
- Counterfeit detection based on 4 machine-readable security features (UV, MG, IR, visible image)
- Automatic currency type identification mode
- Multi-currency mode (simultaneous count of several currencies with separate results)
- Easily accessible banknote path allowing for quick sensor cleaning and jam elimination
- Immediate firmware update option
- Adjustable counting speed allowing for the best possible processing of banknotes of any density and fitness
- Count results printing option
- The counter successfully passed the European Central Bank testing

Specifications	
Counting speed	900/1200/1500 banknotes per minute
Display	color LCD
Banknote size	110-185 mm (width); 60-90 mm (length)
Hopper capacity	500 banknotes
Stacker capacity	200 banknotes
Types of detection	Visible image (high-definition CIS), UV-features, IR image, RGB-image (spectral analysis of paint), magnetic features, 3D-detection (dimension control), optical density (double note checking), integrity check
Power consumption	max 60 W
Power supply	100-240V, 50/60 Hz
Dimensions (WxDxH)	280×260×270 mm
Weight	6,5 kg
